Features That Matter

Maximum Strength

Heavy duty, all steel construction delivers superior strength and institutional durability.

Steel-to-Steel Connections

Threaded inserts are utilized to deliver a steel-to-steel connection on tops, drawer fronts and doors.

Highly Customizable

A wide range of options, such as laminate accents, built-in drawers, lift deck storage, panel bases, bunkable frames and a variety of finish options make it easy to customize each piece to meet the unique needs of any environment.

Chests & Nightstands

Titan® chests, nightstands and desks come standard with institutional grade, high-pressure laminate top surfaces. Want a more residential look for your rooms? Drawer fronts can also be accented with an optional matching laminate.

Our HPL tops and drawer fronts are attached with steel to steel connections for strength and durability. Coordinate the residential look with the same laminate on the doors of a wardrobe and headboards for a bed.

Wardrobes & Desks

The Titan® series includes single and double door wardrobes to suit your application. Wardrobe doors feature 3 1/2", 5 knuckle hinges welded to the frame – to stand up over time. J-Bar is standard – for safety and security. Add optional laminate doors for wood-grained style.

Rounded Edges

Smooth, rounded edges provide a pleasing aesthetic and contribute to a safe design.

Easy Cleaning

Large toe kick bases allow for easy cleaning.

Durable Drawers

Steel reinforced institutional drawer fronts provide a unique look while enhancing overall durability.

Non-Removable Drawer Glides

Drawer glides are welded on the drawer, eliminating the need for screws and loose parts.

Superior Strength

Drawer bodies are made with 18-gauge steel for superior strength and unmatched durability.

Wardrobes

Maximum Strength

Steel reinforced, institutional grade HPL doors provide maximum strength and durability.

Welded Hinges

Durable 5 knuckle hinges are welded directly to the frame for added durability, safety and security.

Integrated Pull Handles

Pull handles are integrated into the wardrobe to eliminate the need for loose parts and pieces that could potentially put the safety of residents and staff at risk.
